

Hawick RFC are pleased to make it clear that we are currently pursuing the option of making a bid to the SRU for one of the “super six” places that are to be available to suitable franchisees. We consider that the Club has a real prospect of meeting all of the criteria that are currently the requirements of a successful bid, to be one of the Clubs to take the next step in Scottish Club Rugby.

With the hugely significant history and achievements of HRFC, we believe that we must remain part of the process of super six application at this time. Whilst there are challenges in the whole process, including significant financial tests to meet, we believe that, by applying, HRFC can look to meet the needs and aspirations of the public, membership , coaching, development and playing groups within this great and unique rugby town.

John Thorburn, Brian Renwick or Rory Bannerman are happy to answer any members questions on this subject.
